

Hello, my name is Tevin Stuurland, I am an interaction designer that likes to create new, refreshing solutions to complex problems.

I am..

A 26 year old designer living in Almere, a town near Amsterdam. For the last 10 years I've been a student of design, literally and figuratively. I work with passion and love to keep on learning. The more I learn about design and the possibilities the more passionate I become.

I can..

- Code // HTML, CSS, SCSS, JS
- Design // Sketch, Adobe, Figma
- Concept creation & ideation
- Test // Invision, Maze, Zeplin, Marvel
- Project & Time management // Notion, Trello, Monday, Asana
- Data management // Mixpanel, Adjust
- 3D visualisations // Blender, C4D

Projects..

2017 (4,5 months)

PostNL

// **Project** - Interaction Design

I've helped PostNL with creating a user-friendly interface for their Parcel and Mail Vending machine. The goal was to focus on all kinds of stakeholders (users, delivery men, PostNL itself), to create an interface that was easy to use.

2018 - 2019 (4 months)

Amsterdam Fashion Institute

// **Project** - Experience Design

I've worked together with the AMFI fashion group iNDiViDUALS to create an experience for visitors of their exposition. In this experience visitors would step in the shoes of a fashion manager and would navigate the choices and problems that fashion managers experience while working a project.

2020 (4,5 months)

Netherlands Cancer Institute

// **Project** - Interaction Design

I've helped the Netherlands Cancer Institute with visualising the digital images, that their Surgical Navigation System uses to navigate the human body. This system will be used during surgery to help the surgeon perform with a higher accuracy and enhance what they see during a surgery.

Education..

2011 - 2015

Media-college Amsterdam

Media designer (Interactive)

2015 - 2020

University of applied sciences (HvA)

Communication and Multimedia Design

Major: Interaction design

Minor: Entrepreneurship

See LinkedIn for more information

Employment..

2016 - 2018 (2 years)

Troop Design

// **Entrepreneurship** - Co-founder, Designer

Together with five other motivated designers, I setup a company and started discovering what it's like to work as an entrepreneur.

2020 - 2021 (1 year)

bunq

// **Full-time** - Product Designer

bunq is a dutch neo-bank that focuses on giving users control and a green option to banking. During my time there I mainly worked on the activation of users, next to that I worked on multiple projects from partnerships to new products.

2021

Informaat

// **Part-time** - UX Designer

Informaat is a design consultancy that supports organizations in the development and implementation of their digital strategies. While working at Informaat I got the chance to help ING and Methaplanet with their UX challenges.

2021 - Current employer

Secfi

// **Part-time** - Product Designer

Secfi helps startup employees make the most out of their equity. Through multiple tools that they can use to gain insights on their equity, financing them when they take the step to make use of their equity and educating companies/employees on equity Secfi aims to change the way equity is seen.

2018 - Current

Freelancing

// **Part-time** - Freelance Creative

Next to my usual work I use my creativity and skills to help people with their challenges. From websites, UX/App design, 3D visualisations. To design thinking, brainstorm sessions and concept creation.
